

#### Attendance:

- Tanner Slemmer, Unavailable
- Hunter Belcher, Sick

#### Topics of Discussion

- Anything else on the project charter?
- Requirements Document
  - Where is everyone at
  - Introduction: Hunter, Kara
  - Functional Objectives: Tanner
  - Non-Functional Objectives: Tanya
  - Context Model: Abbi
  - Use Case Model: Percy, Michael

#### Meeting Discussion

- Midterm: November thanksgiving or so
- Will use perl
- Ask for additional documents and examples of their perl sites
- Discussed wording for the project overview sections in the project requirements document
- Removed the low-priority section of the functional objectives as we capture most of what we need to do and plan to do as a secondary goal in the high and medium priority goals.
- Decided to keep the three sections in the context model, with some reworking planned
- Need to differentiate the steps of the use case models
