Attendance:
- No missing members

Topics of Discussion
- Requirements Document
    - Document created, and the full example document is on moodle
    - Do some progress now, anything we need to decide as a group for content wise
    - Where is everyone at
    - Introduction: Hunter, Kara
    - Functional Objectives: Tanner
    - Non-Functional Objectives: Tanya
    - Context Model: Abbi
    - Use Case Model: Percy, Michael

Meeting Discussion
- Midterm: November 13th or 14th (ish)
- Did they approve/ "sign"?
    - They wanted us to change in/out of scope (stretch goals)
    - Copied into project charter
- Context model:
    - Describing necessary background info
    - Brief, enough to know if its actually valuable to the requirements document, might be better to just have use case models.
- Start thinking about architecture
- Use prototyping tool, Figma
- They're setting up a test environment, or going to give us the exact specs

Questions to sponsor
- Extent of their training game, game specifications
